Completion Notice: Bridge D-05 Guiderail Upgrades

Distributed: October 4, 2022

Project:

**Bridge D-05 Guiderail Upgrades
CR-655 (Morris Turnpike), Frankford Township**

Bridge D-05 will be receiving structural upgrades to the headwalls in order for the bridge to better facilitate guiderail weldment connections over the structure. These upgrades will enhance the safety features of the bridge and allow for a future upgrade of the local guiderail system.

Construction Schedule:

Construction is now complete.

Traffic Impacts:

Bridge D-05 will remain open during construction.

Temporary traffic signals will be implemented to allow for a single-lane, two-way alternating traffic pattern through the work zone.

Traffic flow will be swapped to the Northbound lane beginning 8/11/22, lasting until the completion of the project.

Contact Information:

For more information regarding this project, please contact Chris Lautz, E.I.T. at the Sussex County Division of Engineering at 973-579-0430 x 1308 or clautz@sussex.nj.us
