

Join us  
for a special  
educational seminar on

# know the 10 signs: early detection matters

The warning signs of Alzheimer's disease are often dismissed as side effects of normal aging. If you or someone you know is experiencing memory loss or changes in behavior or thinking skills, it's time to learn the facts. Early detection, diagnosis and intervention are vital because they provide the best opportunities for treatment, support and planning for the future.

Attend this interactive workshop to learn the 10 warning signs of Alzheimer's disease. We will separate myth from reality and address commonly held fears about Alzheimer's in America.

**Saturday, April 14, 2012**

**9:30 a.m. – 11:00 a.m.**

**Dorothy E. Henry Memorial Library**

66 Route 94, Vernon

**973.827.8095**
