DIVISION OF PUBLIC WORKS

UPDATE- WINTER SEASONAL REPORT 2017-2018

2017-2018 WINTER SEASON OPERATIONS

November, December, January, February 2017

Overview:

The Division of Public Works operations focus resources toward continuous preparations and management of winter weather. Along with all of the preparation work described in our last Winter Seasonal Report our crews have/are:

- Responded to 20 storm events to date maintaining the County's 65 snow plow routes across the 620 lane miles thus far this winter.
- Applied approximately 8,000 tons of salt.
- Stockpiled approximately 14,000 tons of grits and distributed throughout the County's 8 Salt Sheds.

You may see our crews:

Continuing to maintain the County's 620 lane miles during winter events.

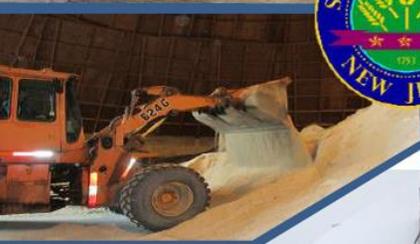

Using the wing plow to push back snow from the shoulder of the roadways.

Stockpiling material at each of our DPW Garages.

Installing snow fence in approved property lining the County's Roadways to prevent snow drifts.

Mixing Material to prepare for winter storms.

Loading trucks with material to salt/sand the 65 plow routes during the many winter weather conditions.

Installing winter equipment onto trucks such as sanders and plows.
