

Appendix C – Wastewater Facilities Tables

The wastewater facility tables for all sanitary and/or process wastewater discharge to surface water facilities and those sanitary/ and/or process wastewater discharge to groundwater facilities discharging greater than 2000 gallons per day (i.e., requiring NJPDES permits) are listed below, based on whether they are domestic or industrial wastewater treatment facilities, and whether they have service areas that affect more than one municipality. A Summary Table is also provided. The wastewater discharges are measured in Million Gallons per Day (MGD).

Domestic Wastewater Facilities With Sewer Service Areas in Multiple Municipalities –

The two regional wastewater facilities in Sussex County are the Sussex County Municipal Utilities Authority and Musconetcong Sewerage Authority, and their facilities tables are included in this appendix.

Domestic Wastewater Facilities With Sewer Service Area in One Municipality – The facility table for Newton is included in the Newton Municipal Chapter.

On-Site Domestic Treatment Facilities– These facilities are listed in the Summary Table and the facility table is in each Municipal Chapter.

Industrial Wastewater Facilities – These facilities are listed in in the Summary Table and the facility table is in each Municipal Chapter.
